Practical project

- Create a console application which handles support tickets for a gas company
- End users
 - Person who needs support
 - Person who offers support

Practical project

- Functional requirements
 - Regular user
 - Create ticket
 - Accept diagnostics report
 - Pay services
 - Operator user
 - Assign to ticket
 - Provide diagnostics report
 - Close ticket

Practical project

- Technical requirements
 - Use the concepts from the course for
 - Classes
 - Access modifiers
 - Methods
 - Properties
 - Fields
 - Interfaces
 - Cohesion/Coupling
 - OOP pillars

C# certification
